

HILLARY ATINDAH GEORGE

Fellowship Program Manager | Education Innovator | ICT for Development
Nairobi, Kenya | +254 790 780 579 | atindahillary@gmail.com

PROFESSIONAL SUMMARY

Fellowship and program manager with 6+ years designing, running, and scaling education initiatives across Kenya. I have built programs from scratch-recruiting cohorts, managing technical partners, designing learning frameworks, and reporting to donors-with a consistent track record of high completion rates and measurable learner outcomes. My work spans the full program lifecycle: from needs assessment and curriculum design through community-of-learning facilitation, M&E, and stakeholder communications. I bring genuine commitment to transformative education, a hands-on understanding of Kenya's learning landscape, and the systems-thinking needed to run fellowship to sustainable impact.

CORE COMPETENCIES

Fellowship Program Design

Curriculum, cohort architecture, learning journey design, LMS management

Data, M&E & Reporting

Salesforce CRM, Power BI, SPSS, KPI frameworks, donor analytics

Stakeholder Engagement

Partner relations, funder communications, community leadership

Team & Partner Leadership

Technical partner management, Trainer of Trainers, performance appraisals

Ed-Tech Platforms & LMS

Kolibri, Learnio, Power Learn Project Africa, PhEt, Microsoft 365

Grants & Proposal Writing

Concept notes, donor proposals, budget development, grant writing

PROFESSIONAL EXPERIENCE

Program Manager - IT Academy

Jan 2026 - Present

Human Practice Foundation Kenya | Maasai Mara, Kenya

- Designed and launched a full-cycle IT Academy fellowship-covering recruitment, onboarding, curriculum sequencing, and graduation pathways-growing enrolment to 50+ youths across ICT certification and advanced levels on Learnio and Power Learn Project Africa platforms.
- Managed an ecosystem of technical and delivery partners, overseeing performance, quality of outputs, and alignment with organisational objectives throughout the program cycle.
- Built a comprehensive digital records system for all fellows in full compliance with Kenya's Data Protection Act 2019, covering biodata, signed agreements, and code of conduct documentation.
- Developed and submitted concept notes and donor proposals to sustain program funding; hosted international partners on-site to provide evidence of impact and build long-term stakeholder confidence.
- Oversaw implementation planning and budget management, ensuring timely delivery of milestones and responsible allocation of resources across the academy.

Digital Literacy Program Manager

Mar 2024 - Dec 2025

Human Practice Foundation | Mount Kenya Region, Kenya

- Designed and scaled a regional education program across multiple schools from the ground up, reaching thousands of students and teachers-building the recruitment pipeline, training systems, and community-of-learning structure that sustained the programme.
- Created and documented SOPs for school digital literacy programmes that were adopted for national rollout, demonstrating the quality and replicability of the systems built.
- Trained 500+ teachers through a Trainer of Trainers model, equipping educators with practical tools for classroom technology integration and building a sustainable delivery network.
- Led M&E operations using Salesforce CRM and Power BI, translating program data into clear, credible impact reports trusted by donors and stakeholders across the programme.
- Contributed to programme reporting and communications that helped diverse stakeholders-locally and globally-understand the work and its impact on learners.

Assistant Financial Accountant & ICT Support

2020 - Mar 2024

Lewa Wildlife Conservancy | Laikipia, Kenya

- Served as the primary IT support for 150+ staff, resolving 95% of tickets within SLA and managing infrastructure operations at 99.9% uptime in a demanding fieldwork environment.
- Supported two consecutive annual audits with zero major findings, demonstrating strong data quality practices and financial record management.
- Produced monthly Donor Analysis and Quarterly Financial Reports that gave management and external stakeholders reliable, decision-ready financial information.
- Delivered Microsoft 365 and cybersecurity training across the organisation; administered Sage Evolution ERP and supported the finance team with accounts payable and receivable functions.
- Reduced IT procurement costs by 15% through structured vendor negotiations and hardware lifecycle planning.

Backend Engineer & Onboarding Manager

Jan 2019 - Jan 2020

Alatpres Technologies | Kenya

- Built and maintained server-side architecture for 15+ web applications serving 50,000+ active users, shipping production-grade systems reliably.
- Reduced application vulnerabilities by 30% and improved stability by 20% through targeted codebase hardening and cross-functional collaboration with the front-end team.

KEY ACHIEVEMENTS & RECOGNITION

1. Learning Through Play Champion 2025 – Training 500 teachers and over 3000 learners on play based learning.
2. STEM & Robotics Champion 2024 - featured on NTV EdTech Mondays (Mastercard Foundation & EdTech East Africa).
3. Judge & Organiser, World Robotics Olympiad 2024/2025 - assessed regional teams and managed the full competitive programme.
4. Finalist, EdTech Entrepreneurship Competition - Injini & EdTech Hub Kenya.
5. Co-facilitated the Central Kenya EdTech Summit 2025, leading robotics and sustainability sessions for educators across the region.
6. Mentored 500+ primary and secondary school students, contributing to a 65% improvement in school transition rates.

EDUCATION

Bachelor of Business and Information Technology (BBIT)

2021

Kenya |
